

I am writing the FCC to show them how much the radio station KLOVE means to myself and my family. KLOVE serves the whole community by allowing good wholesome music plus other additives such as the family minute and many more. KLOVE provides our community with many things for the whole family to enjoy. The service that KLOVE provides our community is priceless and if you decide to take that away would be detrimental to our community. I love to listen to this station more than any other on the radio and if you decide to replace it with an LPFM broadcaster, well it just wouldn't be fair and it wouldn't be in thousands of people's best interest. Please consider these comments and leave the KLOVE to where it's at.
Thanks for your time, Cindy Dirksen
